

COMPANY PROFILE

**RNA TRANSPORT & MARINE
SERVICES CORPORATION**

"Everything is possible because we make it happen."

ABOUT US

In 1993, RNA started and flourished as an in-house tank cleaning of Batangas Bay Carrier Inc (BBCI) providing marine services to various shipping lines and oil tanks operators.

Mr. **RENATO NALANGAN ARRIETA** founded RNA Marine services as a sole proprietor company in 2004, focused on providing tank cleaning services which include hot works, power tooling and blasting, trucking, and other shipping structural services. Because of his commitment and his team to deliver fast and reliable services, he was able to build relationships with his valued clients.

At this present time, RNA has acquired 10 units of 10W trucks, and 44 units of tractor heads assigned in different areas nationwide. Through his hard work and commitment, together with his loyal and supportive team, he was able to bring remarkable performance in the industry.

In 2010, RNA was registered with SEC as a corporation. Combining oil tank cleaning and transportation services has grown into a third-party logistics offering an end to end supply chain solutions to businesses across all regions in the country.

RNA TRANSPORT & MARINE SERVICES CORPORATION continues to put its foot forward to offer value-added solutions to its new and existing clients. Our services are adaptable to the needs of individual businesses. We manage supply chain operations for a wide range of industries and integrated solutions. Our investment is with our people who are specialists and experts in various elements of supply chain operations.

"Everything is possible because we make it happen."

ABOUT US

- To deliver excellent end-to-end solutions that exceed our customers' expectations, promote professional growth, and ensure the health and safety of our team members.
- To execute a reasonable return on investment to our shareholders, as well as to adhere to all regulatory and statutory requirements and regulations, as well as to ethical business practices.
- To practice corporate social responsibility and give back to the community, as well as build a stronger network through strategic alliances, capacity building, and the application of strategic technologies.

To be a valuable partner to our clients by assisting them in developing and maximizing long-term competitive advantages, as well as assisting them in bringing their products to market in a timely, efficient, and safe manner, we will conduct our interactions in accordance with the fundamental business values of ethics and respect.

"Everything is possible because we make it happen."

CORE VALUES

CUSTOMER FOCUS

We deliver and go above and beyond for our customer's expectations.

INTEGRITY

We always act with honesty and credibility.

INDIVIDUAL RESPECT

We indulge one another with dignity and respect. We build stronger relationship between our employee, our customer and our business partner.

OUTPUT-DRIVEN

We strive to achieve our objectives with zeal

TEAMWORK LEADS TO EXCELLENCE

We collaborate and learn as a team to achieve long-term success. We foster the excellent working relationships through team building and engagement of our employee

SOCIAL RESPONSIBILITY

We are champions of social development and good governance

"Everything is possible because we make it happen."

OUR SOLUTIONS

MARINE SERVICES

To operate in an efficient, safe, and environmentally friendly manner, the marine industry is becoming increasingly reliant on technology. Our business model is the result of decades of hard work, and our size allows us to keep investing in cutting-edge technology. We are a dependable service partner for delivering quality services to our customers because of our 20 years of experience.

ISO TANK CLEANING

We offer services in all aspects of ISO tank container maintenance and service, along with surveying, testing, tank cleaning, repairs, and modifications, among other things.

OIL DEPOT/ SEA VESSEL TANK CLEANING

We clean oil tankers, shipping vessels, and oil depots for the country's major shipping lines and oil companies. Our experienced team cleans engine rooms, pump rooms, storage rooms, bilge tanks, slop tanks, fuel oil tanks, and oil spills using our eco-friendly solution.

HYDRAULIC CLEANING & REPAIR

Our highly trained technical staff is dedicated to providing our customers with dependable regular maintenance on hydraulic pumps, motors, cylinders, rotary actuators, proportional valves, servo valves, and other industrial hydraulic items.

OTHER SERVICES

Vessel Carpentry
Crane Repair
Bow Thruster

Vessel Automation
Crane Engineering

"Everything is possible because we make it happen."

OUR SOLUTIONS

TRUCKING SERVICES

We have a distinct quality in terms of speed and cost. These options, combined with the advice of our experienced staff, ensure a highly productive transportation process. We can also combine road transportation with other modes of transportation. In addition to the service provided by our staff and operational teams, we place a high value on providing our customers with the information and details they require about transportation services.

CLOSE VANS – LCL CARGO

We provide trucking services for LCL cargo and warehouse transport of raw materials to finished goods in a variety of locations and verticals. We are conveniently located in Manila's business district, so you can expect prompt and dependable delivery on any given day. We offer 4W, 6W, 6WF, & 10W to handle various delivery volumes.

TRAILER & CHASSIS – CONTAINERIZED CARGO

We provide a personalized experience to meet the requirements of each of our clients. We will ensure the optimal and reliable transfer of your import/export and domestic containerized cargo, whether it is moving out of Manila port or into your container yard.

LOWBED TRAILER TRUCK – PROJECT CARGO

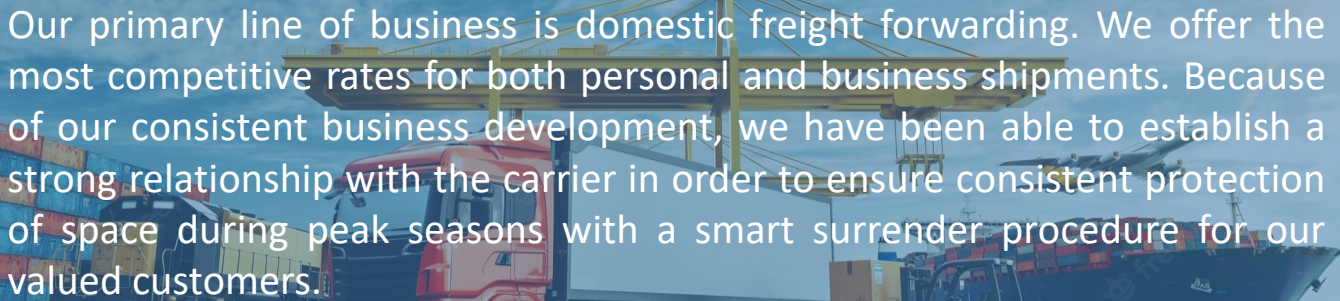

Semi-trailers with a low bed that are used to transport construction machinery and large equipment such as mining machinery, excavators, bulldozers, cranes, and so on. The lower the trailer's chassis, the lower the center of gravity, and thus the safer the transport. The trailer's load capacity is 60 tons and can be customized.

"Everything is possible because we make it happen."

OUR SOLUTIONS

DOMESTIC FORWARDING

Our primary line of business is domestic freight forwarding. We offer the most competitive rates for both personal and business shipments. Because of our consistent business development, we have been able to establish a strong relationship with the carrier in order to ensure consistent protection of space during peak seasons with a smart surrender procedure for our valued customers.

DOOR TO DOOR DELIVERY

FCL and LCL services are available for pickup and delivery from and to any office or residential address, warehouse, container yard, or commercial space.

PORT TO PORT ARRANGEMENT

We assist you in facilitating the loading and unloading of your shipments from the Port of Origin to the Port of Destination..

AIRPORT TO AIRPORT TRANSACTION

Hand-carry high-value items, LCL drop-off or claim any packages with our branch representative at any local airline.

WAREHOUSE TO WAREHOUSE FULFILLMENT

Allows you to use our facility and equipment to load or unload bulk shipments or cargo & fulfillment of your last mile deliveries.

"Everything is possible because we make it happen."

OUR SOLUTIONS

WAREHOUSING SERVICES

We respond to your needs with special services that make efficient use of time and labor in warehouse management, leveraging our chain of trust to manage the entire process from customer pickup to delivery to end users. Handling, packing, packaging, and domestic distribution solutions are some of the value-added services we offer.

INVENTORY MANAGEMENT

We manage your inventory within your own storage facilities or manage storage facilities for you. We offer a variety of value-added services, including labeling, packaging, and quality inspections, all of which are customized to your order fulfillment needs.

AMBIENT STORAGE & FULFILLMENT

We store your products in accordance with your operational needs and space constraints, and we prepare customer orders for next-day delivery. Our warehouses, which are supported by WMS, handle receiving, storing, picking and packing, and order fulfillment.

COLD STORAGE & FULFILLMENT

Through sound Japanese technology and Filipino ingenuity, our facility provides efficient and dependable cooling systems for food quality preservation and safety. Customized to meet the specifications of the client in order to achieve the desired refrigeration levels.

STORAGE ON DEMAND

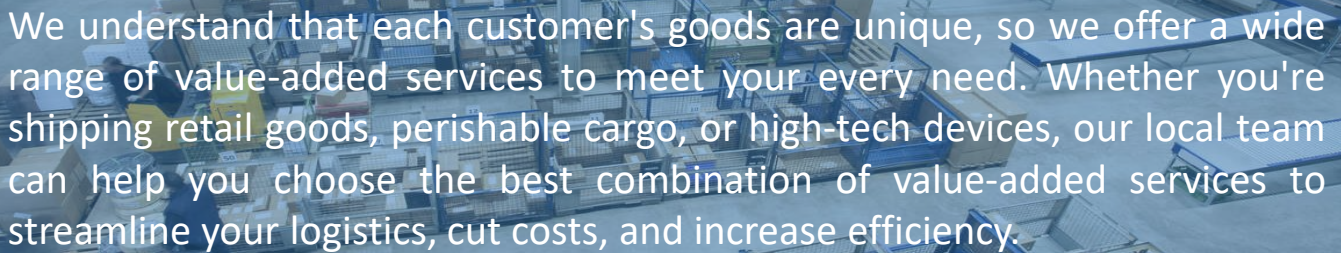

We provide the option to store your products based on seasonal demand, which will help you deal with unexpected volumes; simply pay for the space you need.

"Everything is possible because we make it happen."

OUR SOLUTIONS

VALUE ADDED SERVICES

We understand that each customer's goods are unique, so we offer a wide range of value-added services to meet your every need. Whether you're shipping retail goods, perishable cargo, or high-tech devices, our local team can help you choose the best combination of value-added services to streamline your logistics, cut costs, and increase efficiency.

PRODUCT SORTING

Our facilities handle and sort your cargo according to your requirements, such as carton sorting at the customer PO level and other similar optimization.

LABELING

Label placement or attachment based on your specific operational and marketing needs, such as pallet or carton labeling, inner carton labeling, and so on.

KITTING

Our service enables you to create bundles or customized products for any market need, including bundling, product boxing, and stickering.

RE-PACKAGING

We can help you with cargo packing or repackaging based on your needs, such as repacking cargo from a damaged box into a new box.

PRODUCT BUNDLING

We can help you with your marketing campaign by preparing promotional merchandise and delivering it to your clients.

"Everything is possible because we make it happen."

MHE INSTALLATION

SELECTIVE RACKING

This is the most common form of storage for pallet loads. It combines the speed and access to individual pallets with increased use of cubic space available. Adjustable Pallet racking systems, when used with counterbalance or reach trucks, provides instant access to all pallets. It can carry heavy loads and can be easily installed.

DRIVE IN/THRU RACKING

Front to back rails replace standard beams to support pallets. Lift trucks access pallets by driving into lanes from one or both ends. In a Drive – In system, pallet loading, and retrieval is from the same aisle and is used where last – in first – out (LIFO) principle is acceptable.

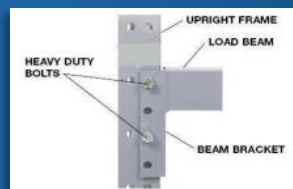

RACKING SYSTEM

CUSTOM DESIGNS AND TAILOR-FIT YOUR NEEDS.

Our adjustable pallet racking system, with a wide range of components and accessories, can meet your precise requirements.

SHORTER LEAD TIME

Unlike imported racks that are prone to delays, we guarantee shorter delivery and setup time.

OUR OPERATION COVERAGE
